

# COMPANY OVERVIEW

## COMPANY PROFILE

**ORGANIZATION:** Company was established in 2005 is actively Involved in manufacturing and supplying of medical disposable surgical products to meet the demand of health care industries as Per Indian standards and international standards with small base and broad spectrum vision.

By virtue of experience company has mastered the product and gathered expertise in testing of medical surgical disposable products. Company is in position to meet the customer's requirement in terms of product quality, range & Quantity, Company has a team of competent personnel to do their functions and thus deliver the products to the customer's satisfaction. Company has already earned recognition about their capabilities to make product as per customer's specifications and to any specific demand.

**THE QUALITY AIM:** Company is provide best quality product for best human health by overview of the structure of the Quality Management System. Our quality control standards have achieved us the ISO, CE & Certification.

**COMMITMENT:** The Organization is committed to understand the customer's requirement including those of statutory, regulatory, delivery and the post delivery activities to quality of products with Quality Management System.

**QUALITY POLICY:** We shall achieve customer satisfaction by means of establishing and sustaining an effective quality management system that ensure to provide customer requirement with Quality Assurance.

- Reliable quality of disposable product at competitive rate.
- By introducing new range of surgical products.  
As a customer focused company we shall be able to understand changing customer requirements time to time and continuously improve our quality management system.

**INFRASTRUCTURE:** The infrastructure requirement such as the Land, Building, Workspace, Utilities equipments, Communications facilities are sophisticated, dedicated and modernized.

We have

- Class 10,000 Assembly Room
- Class 1,00,000 Assembly Room
- In House Quality control testing and R&D department
- Modernized E.T.O. Sterilization plant
- Specification work environment is maintained for the production as per statutory requirement and regulatory requirement.

### QUALITY CONTROL & MANAGEMENT SYSTEM:

Product realization has planned and developed the process needed through quality management system like.

- All manufacturing process under hygienic condition.
- In coming raw material testing before it is used in production process.
- In process testing in production quality control and checked at all levels.
- Inspection quality control & checked.
- Finish product quality control testing. It
- include physical, chemical & biological testing as per statutory requirement and regulatory requirement.

### IMPROVEMENT:

The Management of the company shall continuously improve the Quality Management System on basis of following points during the Management.

- Quality policy with quality objectives.
- Analysis of products
- Preventive action
- Corrective Action
- Customer feedback

# VALUABLE BRANDS

# INFUSION TRANFUSION

## INFUSIONSET (ECO)

Product code : IT-01

1. Super smooth Kink resistant tube.
2. Clear, Transparent & Flexible chamber.
3. Very efficient roller Controller for accurate flow rate.
4. Latex / Latex free Tube for flushing.
5. Needle size G : 21.
6. Sterile / Disposable / Individual Packed.

## INFUSIONSET (Deluxe)

Product code : IT-02

1. Super smooth Kink resistant tube.
2. Clear, Transparent & Flexible chamber.
3. Very efficient roller Controller for accurate flow rate.
4. Self sealing Latex / Latex free bulb for easy flushing.
5. Needle size G : 21.
6. Sterile / Disposable / Individual Packed.

## INFUSIONSET (Premium)

Product code : IT-03

1. Super smooth Kink resistant tube.
2. Very efficient roller Controller for accurate flow rate.
3. Clear, Transparent & Flexible chamber.
4. Self sealing Latex / Latex free bulb for easy flushing.
5. Needle size G : 21.
6. Sterile / Disposable / Individual Packed.

## INFUSIONSET (Classic)

Product code : IT-04

1. Super smooth Kink resistant tube.
2. Very efficient roller Controller for accurate flow rate.
3. Clear, Transparent & Flexible built in Air Vent chamber.
4. Self sealing Latex / Latex free bulb for easy flushing.
5. Luer locking for secure connection
6. Needle size G : 21.
7. Sterile / Disposable / Individual Packed.

## INFUSIONSET (Yconecter & Luer Lock)

Product code : IT-05

1. Super smooth Kink resistant tube.
2. Very efficient roller Controller for accurate flow rate.
3. Clear, Transparent & Flexible built in Air Vent chamber.
4. Built on T connector injection site for extra Medication.
5. Self sealing Latex / Latex free bulb for easy flushing.
6. Luer locking for secure connection
7. Needle size G : 21.

## INFUSIONSET (Airvent)

Product code : IT-06

1. Clear, Transparent & Flexible built in Air Vent chamber.
2. Very efficient roller Controller for accurate flow rate.
3. Self sealing Latex / Latex free bulb for easy flushing.
4. Super smooth Kink resistant tube.
5. Needle size G : 21.
6. Sterile / Disposable / Individual Packed.

## INFUSIONSET (Microdrip)

Product code : IT-07

1. Super smooth Kink resistant tube.
2. Very efficient roller Controller for accurate flow rate.
3. Clear, Transparent & Flexible chamber.
4. Self sealing Latex / Latex free bulb for easy flushing.
5. Luer locking for secure connection
6. Needle size G : 21.
7. Sterile / Disposable / Individual Packed.

## BLOOD ADMINISTRATION SET (DOUBLE CHAMBER)

Product code : IT-08

1. Super smooth Kink resistant tube.
2. Very efficient roller Controller for flow rate.
3. Clear, Transparent & Flexible double drip chamber.
4. Self sealing Latex / Latex free bulb for easy flushing.
5. Luer locking for secure connection
6. Needle size G : 21.
7. Sterile / Disposable / Individual Packed.

## BLOOD ADMINISTRATION SET (SINGLE CHAMBER)

Product code : IT-09

1. Super smooth Kink resistant tube.
2. Clear, Transparent & Flexible chamber.
3. Very efficient roller Controller for accurate flow rate.
4. Self sealing Latex / Latex free bulb for easy flushing.
5. Luer locking for secure connection
6. Needle size G : 21.
7. Sterile / Disposable / Individual Packed.

## MEASURED VOLUME SET | 10 ml.

Product code : IT-10

1. Super smooth Kink resistance tubing uniform flow rate.
2. Flexible, Transparent & Soft cylindrical measured volume chamber with sharp and easy piercing spike.
3. Smooth roller clamp facilitate easy, safe control and adjustment of fluid rates.
4. Specially designed floating auto shut off valve act as floating indicator and automatically shut of the drain path when the chamber gets empty to prevent air trapping in the fluid line.
5. Separate plug for extramedication and continuous change over. sterile / Disposable / Individually Packed.

## MEASURED VOLUME SET | 50 ml.

Product code : IT-11

1. Super smooth Kink resistance tubing uniform flow rate.
2. Flexible, Transparent & Soft cylindrical measured volume chamber with sharp and easy piercing spike.
3. Smooth roller clamp facilitate easy, safe control and adjustment of fluid rates.
4. Specially designed floating auto shut off valve act as floating indicator and automatically shut of the drain path when the chamber gets empty to prevent air trapping in the fluid line.
5. Separate plug for extramedication and continuous change over. sterile / Disposable / Individually Packed.

## THREE WAY STOPCOCK

Product code : IT-12

1. Fully transparent polycarbonate body for visualization of flow.
  2. 6% luer taper as per international standard.
  3. Arrow indication mark for indicating direction of flow.
  4. Also available with lipid resistant feature.
  5. Rotating dead space for accurate drug administration .
  6. Continuous flow channels.
  7. Tight cover for all end.
  8. Pressure tested hydrostatically for up to 60 PSI.
  9. Rotation allowed for 360 degree.
  10. Red & blue pegs for arterial and venous line identification available on request.
- Sterile / Disposable / Individually Packed

## THREE WAY STOPCOCK (WITH EXTENSIONLINE)

Product code : IT-13

1. Super smooth kink resistance tubing ensure uniform flow rate.
  2. Extension line with three way stop cock at one end & male luer lock connector at other end.
  3. Crystal clear transparent channel.
  4. Minimum priming volume required for accurate drug administration.
  5. Arrow indication on the handle to indicate the direction of flow.
  6. Connection meets 6% taper requirement to ensure leakage free fitment
  7. Available with DEHP free material
- Sterile / Disposable / Individually Packed

## EXTENSION TUBE HIGH PRESSURE & LOW PRESSURE Product code : IT-14

## IV FLOW REGULATOR WITH EXTENSION TUBE Product code : IT-15

1. I.V. fluid flow regulator extension set to regulate the flow of IV fluid from an infusino set into an IV catheter.
  2. Super smooth kink resistance tubing ensuring uniform flow rate.
  3. Designed to control flow rate from 5ml / hr - 250 ml / hr manually.
  4. Built on "Y" connector injection site for extra medication.
  5. Two head operation eliminates the danger of accidental tampering.
  6. Provision of male and female luer lock makes it compatible with other devices.
  7. Available with DEHP free material
- Sterile / Disposable / Individually Packed

# UROLOGY

## URINE COLLECTING BAG (REGULAR)

### Product code : URO-01

1. With various type of specially molded hanger.
2. With or without "I" type Screw Type or Push Pull type bottom outlet
3. With or without Pinch Clamp.
4. Tube length : 90cm, 100cm, 120cm, 150cm
5. Size : 500ml, 1000ml, 1500ml, 2000ml
6. With or without sampling part sterile or non sterile.

## URINE COLLECTING BAG (WITH HANGER)

### Product code : URO-02

1. With various type of specially molded hanger.
2. With or without "I" type Screw Type or Push Pull type bottom outlet
3. With or without Pinch Clamp.
4. Tube length : 90cm, 100cm, 120cm, 150cm
5. Size : 500ml, 1000ml, 1500ml, 2000ml
6. With or without sampling part sterile or non sterile.

## URINE COLLECTING BAG (WITH HANGER "T" TYPE) Product code : URO-03

1. Super smooth kink resistance tube to provided with universal tapered connector.
2. Provides freedom of mobility as the bag is attached to the leg of the patient.
3. Efficient non return valve prevent the back flow.
4. Bottom outlet drainage system.
5. Bag graduated in ml to indicate the quantity of urine collecting.
6. Transparant sheeting allows visual inspection.
7. Size :800ml.
8. Tube length : 50cm, 80cm, 100cm sterile or non serile

## UROMETER Product code : URO-04

1. Super smooth kink resistance tube to provided with universal tapered connector.
  2. Designed for accurete measurement of hourly urine output during examination of the patient.
  3. Urine bag is manufactured from extra strong sheeting to with stand during the long period.
  4. Specially designed hock facilites for carrying , handling and holding the tube in upright position.
  5. Urine bag attached directly with measured volume meter ensure auto over flow and convenience to empty the measured volume meter in the bag.
  6. Competatly closed circuit eliminates the risk of contamination.
  7. With "T" type Bottom outlet
  8. Bag Graduated in ml to indicate the quantity of urine collected.
  9. Transparant sheeting allows visual inspection
  10. Available with DEHP free material  
Sterile /Disposable/Individually Packed
1. With verious type of specially molded hanger.
  2. With or without "I" type Screw Type or Push Pull type bottom outlet
  3. With or without Pinch Clamp.
  4. Chamber Size : 250ml, 500ml
  5. Tube length : 100cm, 120cm, 150cm
  5. Size : 2000ml
  6. With or without sampling part .

## PAEDIATRIC URINE COLLECTING BAG

### Product code : URO-05

1. For Short term urine collection.
2. Use of hygiene adhesive for fixation minimum risk of allergy and injuries.
3. Size. : 100ml, 200ml,sterile or non sterile

## MALE EXTERNAL CATHETER

### Product code : URO-06

1. Manufactured from pure latex for soft and gentle feel.
  2. Male catheter is specially designed for urine incontinence for day and night use in male patient.
  3. Provided with self adhesive coated strip for proper fixing on to the penis.
  4. Proximal end is designed for easy connection to urine bagmaking it simple to use
- Sterile / Disposable / Individually Packed.

## NELATON CATHETER

### Product code : URO-07

1. Nelaton catheter are used for short term bladder catheterization.
  2. Super smooth kink resistance tubing ensures uniform flow rate.
  3. Atraumatic, soft rounded closed tip with two lateral eyes for efficient drainage.
  4. Frozen surface tubing for super smooth intubation.
  5. Proximal end is fitted with universal funnel shaped connector for extension.
  6. Colour coated connectors for easy identification of size as per standards.
  7. X-Ray opaque line provided through out the length of catheter.
  8. Available in male and female version.
  9. Available with DEHP free Material
  10. Length : 40cm
- Sterile / Disposable / Individually Packed

# ANAESTHESIA

## TWIN BORE NASAL OXYGEN SET

### Product code : ASA-01

1. Super Smooth kink resistance tubing ensures uniform flowrate.
  2. Designed for easy administration of oxygen and comfort of patients.
  3. Soft twin prong nasal tips to ensure equal volume of oxygen to both air passages.
  4. Star lumen main tube to avoid accidental blockage.
  5. Smoothly finished and adjustable nasal tips for maximum patients comfort.
  6. Soft funnel shaped connector facilitates easy connection to oxygen source.
- Tube Length: 210 cm.  
 Size : Adult, Pediatric, Neonatal  
 Available with DEHP free Material  
 Sterile/Disposable/Individually Packed.

## NASAL OXYGEN CATHETOR

### Product code : ASA-02

1. Super Smooth kink resistance tubing ensures uniform flowrate.
  2. Suitable for direct administration of oxygen via nasopharyngeal route. Atraumatic, soft rounded Open distal end with two lateral eyes for non-traumatic insertion and dispersion of oxygen and prevention of oxygen burn.
  3. Frozen surface tubing for super smooth intubation.
  4. Proximal end is fitted with universal funnel shaped connector for connection to oxygen source.
  5. Color coded plain connector for easy identification of size.
- Available with DEHP free Material  
 Sterile/Disposable/Individually Packed.

Color code	Light Green	Blue	Black	White	Green	Orange	Red	Yellow	Violet	Light Blue
Size FG	6	6	10	12	14	16	18	20	22	24

## SUCTION CATHETOR

### Product code : ASA-03

1. Super Smooth kink resistance tubing ensures uniform flowrate.
  2. For removal of secretion from trachea and bronchial region
  3. Atraumatic, soft rounded Open distal end with two lateral eyes for non-traumatic insertion
  4. Frozen surface tubing for super smooth intubation.
  5. Proximal end is fitted with universal funnel shaped connector for connection to oxygen source.
  6. Color coded plain connector for easy identification of size.
- Available with DEHP free Material  
Sterile/Disposable/Individually Packed.

Suction Catheter (Plain) Provided with universal funnel shape connector for safe connection to standard suction equipment.  
Suction Catheter (Thumb control with Stopper) Suction catheter with Thumb Control valve provided with stopper  
Suction Catheter (Finger Tip) Provided with Y shape vacuum control valve with finger tip control facility.

Color code	Light Green	Blue	Black	White	Green	Orange	Red	Yellow	Violet	Light Blue
Size FG	6	6	10	12	14	16	18	20	22	24

## UROTHAL CATHETOR

### Product code : ASA-04

1. Used for short term bladder catheterization through urethra.
  2. Super Smooth kink resistance tubing ensures uniform flowrate.
  3. Atraumatic, soft rounded close tip with two lateral eyes for efficient drainage.
  4. Frozen surface tubing for super smooth intubation.
  5. Proximal end is fitted with universal funnel shaped connector for extension.
  6. Color coded plain connector for easy identification of size
  7. X-Ray opaque line provided through out the length of catheter.
  8. Length : 40cm.
- Sterile / Disposable / Individually Packed.

Color code	Light Green	Blue	Black	White	Green	Orange	Red	Yellow	Violet	Light Blue
Size FG	6	6	10	12	14	16	18	20	22	24

## GUEDEL AIRWAYS

### Product code : ASA-05

1. Suitable for maintaining an unobstructed oropharyngeal
  2. Bite block to prevent biting of tongue and airway occlusion.
  3. Rounded atraumatic edges.
  4. Smooth airway path for easy cleaning .
- Color coded bite block for easy identification of sizes.  
Sterile / Disposable / Individually Packed.

Color code	Violet	Blue	Black	White	Green	Orange	Red	Yellow
Size FG	000	00	0	1	2	3	4	5

## OXYGEN FACE MASK

### Product code : ASA-06

1. Super Smooth kink resistance tubing ensures uniform flowrate.
  2. Made from a soft clear plastic and anatomically formed for comfort.
  3. Smooth and feathered edge of face mask for patient comfort and reducing irritation point.
  4. Adjustable elastic strip and integrated nose clip for proper positioning of mask.
  5. Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source.
- Star lumen main tube to avoid accidental blockage.  
Tube Length: 210 cm.  
Size : Adult, Pediatric, Neonatal  
Available with DEHP free Material  
Sterile/Disposable/Individually Packed.

## NEBULIZER KIT

### Product code : ASA-07

1. Designed to be used with any standard Nebulizer Kit
  2. Super Smooth kink resistance tubing ensures uniform flowrate.
  3. Smooth and feathered edge of face mask for patient comfort and reducing irritation point.
  4. Adjustable elastic strip and integrated nose clip for proper positioning of mask.
  5. The Nebulizer Kit just plugs into the standard fitting located at the bottom of the mask.
  6. Mask are designed to deliver more medication directly to the patient due to the direct flow design.
  7. Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source.
  8. Star lumen main tube to avoid accidental blockage.
- Tube Length: 210 cm.  
Size : Adult, Pediatric, Neonatal  
Available with DEHP free Material  
Sterile/Disposable/Individually Packed.

## HME-BVF BREATHING FILTER

### Product code : ASA-08

1. Breathing filters are used in respiratory support equipment such as life support and human ventilation fitted in the airway between equipment and patient. The removal of bacteria from the air breathed in the hospital equipment is critical in the protection of the patients. Other hospital personnel and breathing support equipment filters utilize hydrophobic membrane & synthetic media that provide barrier & electrostatic filtration with bacterial & viral removal efficiency higher than 99.99% accomplished with extremely low resistance to airflow. The HME keeps moisture retention and warming of inhaled air filter design in different size with CO2 monitoring port, facilitate use on a wider range of patients.

Product Features : Clear housing Low flow resistance High filtration efficiency, High heat & humidity level CO2 monitoring level, Port Sterile Package.

Size : Adult, Paediatric Sterile / Disposable / Individually Packed

## ENDOTRACHEAL TUBE ORAL-NASAL (PLAIN)

### Product code : ASA-09

1. Used to maintain a patient airway and mechanically ventilate patient.
  2. High volume, Low pressure cuff, maintains seal throughout ventilator cycle.
  3. X-Ray detectable line available.
  4. Thermosensitive PVC allow the tube to soften at body temperature to conform to airway anatomy.
  5. Clear PVC tube with visible marking for easy observation.
  6. Murphy eye smoothly formed to allow ventilation in the event of obstruction of the end of the tube during intubation.
  7. A full range of standard sizes to meet most of your requirements.
  8. Universal 15 mm Connector at proximal end
  9. Available with DEHP free Material
- Sterile / Disposable / Individually Packed

Size mm

CUFFED : 4.0,4.5,5.0,5.5,6.0,6.5,7.0,7.5,8.0,8.5,9.0,9.5,10.00

Plain: 2.0,2.5,3.0,3.5,4.0,4.5,5.0,5.5,6.0,6.5,7.0,7.5,8.0,8.5,9.0,9.5,10.00

## ENDOTRACHEAL TUBE ORAL-NASAL (WITH CUFF)

### Product code : ASA-10

1. Used to maintain a patient airway and mechanically ventilate patient.
  2. Uniform spiral metal-reinforced tube wall to prevent the tube from kinking
  3. Reinforcement supports tube position and verification during X-ray.
  4. Accurate and safe positioning ensured by graduation marks and tip-to-tip radiopaque line.
  5. High volume, Low pressure cuff ensure efficient low pressure cuff seal (For cuffed tubes)
  6. Universal 15 mm Connector at proximal end
  7. Available with DEHP free Material
- Sterile / Disposable / Individually Packed

Size mm

CUFFED : 5.0,5.5,6.0,6.5,7.0,7.5,8.0,8.5,9.0,9.5,10.00

Plain: 3.0,3.5,4.0,4.5,5.0,5.5,6.0,6.5,7.0,7.5,8.0,8.5,9.0,9.5,10.00

## VENTILATOR CIRCUIT (DOUBLE WATER TRAPE) Product code : ASA-11

1. Ventilators circuit is the gas pathway connecting patients lung to the mechanical ventilator. It is essential that circuit should be highest quality in order to ventilate patient correctly, efficiently and safely We offers wide of circuit with ISO standard connectors to suit most of the ventilator and humidifier.

2. The corrugated tubes have a good flexibility and bending resistance, not meander, not broken, that mechanical ventilation in the process smooth gas supply.

3. Breathing circuit uses standard connector that is simple convenience in clinic.

Size : Adult, Paediatric & Neonatal

Sterile / Disposable / Individually Packed

## VENTILATOR CIRCUIT (SINGLE WATER TRAPE) Product code : ASA-12

1. Ventilators circuit is the gas pathway connecting patients lung to the mechanical ventilator. It is essential that circuit should be highest quality in order to ventilate patient correctly, efficiently and safely We offers wide of circuit with ISO standard connectors to suit most of the ventilator and humidifier.

2. The corrugated tubes have a good flexibility and bending resistance, not meander, not broken, that mechanical ventilation in the process smooth gas supply.

3. Breathing circuit uses standard connector that is simple convenience in clinic.

Size : Adult, Paediatric & Neonatal

Sterile / Disposable / Individually Packed

## THREE BOLLS RESPIRATOR EXERCISER

Product code : ASA-13

1. Restores and maintains lung capacity in post operative patients by slow, synchronized deep breathing.
  2. Allow visual calibration and estimation of the patients progress.
  3. Strengthens primary and accessory respiratory muscles and conditions them.
  4. Enhnces endurance of both inspiratory and expiratory muscles.
  5. Improves respiratory parameters.
  6. Improves maximal exercise capacity.
  7. Improve cardio-pulmonary status of the patient,enhancing the overall fitness and wellbeing.
  8. Increases circulation of hormones in the blood which increase the blood flow to the heart, brain and lungs.
  9. Improves oxygenation of blood, reduces fat levels by burning calories.
  10. Assists pulmonary rehabilitation in patients with COPD, improves the quality of their life.
  11. Sustained deep breathing has been shown to relieve anxiety and fight stress
- Types Available :
12. Single Ball or Three Ball

## SINGLE BOLLS RESPIRATOR EXERCISER

Product code : ASA-14

## T-RECOVERY KIT FLOVENT

Product code : ASA-15

1. T-Piece Kit Designed for use recovery for the delivery of Oxygen via the patient 15mm ET Connection or Laryngeal mask.
  2. 7.6mm port for suction with non-popping cap.
  3. The Kit comprises T-Piece with port, 22mm-15cm reservoir flexi tube and Oxygen stem with cap.
- Sterile / Disposable / Individually Packed.

1. With or without 2mtr. Star lumen Oxygen Tube.
2. With or without 40% or 60% Venturi Valve and 2 mtr. Tubing.

## CATH-MOUNT

Product code : ASA-16

1. Catheter mount connects patient ET to breathing circuit. This minimizes the jerk of breathing to ET or TT reducing to trachea.
  2. The double swivel makes no dragging on breathing circuit & ET or TT.
  3. Light weight, Double swivel roates 360<sup>0</sup> on both axis, Minimum compliance, Low dead.
  4. Compatible with all types of breathing and ventilator circuits.
  5. Provided with 22 mm standard female connector on both the ends with inner diameter of 15 mm.
  6. Collapsible corrugated tubing being insert to all anesthetic gases and reagents.
  7. An elbow port is provided for easy suctioning without causing disturbance to breathing circuits.
- Sterile / Disposable / Individually Packed.

## BAIN CIRCUIT WITH HEINBRINK VALVE

Product code : ASA-17

1. Bain Circuit offered comprises co-axial modification of basic T-Piece system which has been developed for facilitating scavenging of waste anesthetic gases. As a tube carrying fresh gas, it travels inside the outer reservoir tube to the endotracheal tube connector. The process includes the patient inspiring fresh gas from the outer reservoir tube and expiring into the reservoir tube.

3. Adult : It is based on Mapleson D system, provided with 22 mm corrugated tube, expiratory valve and 2 Litre antistatic bag. Paediatric : It is based on Mapleson D system, provided with 15 & 10 mm corrugated tube, with a 0.5 Litre antistatic Rebreathing.

Bag and a bag bleed valve.

Sterile / Disposable / Individually Packed.

## AMBU BAGS

### Product code : ASA-18

1. Hand operated compressible self-refilling ventilation bag with non-rebreathing patient valve with pressure limitation valve to minimize the risk of over-inflating, intake valve with nipple for oxygen tubing.

2. Supplied with oxygen reservoir bag (suitable capacity) and 2 meter oxygen tubing.

3. Resuscitator can be disassembled for cleaning, disinfecting or autoclaving process.

Size : Adult, Paediatric & Neonatal

## HIGH CONCENTRATION OXYGEN MASK

Product code : ASA-19

1. Super smooth kink resistance tubing ensures uniform flowrate.
  2. Smooth and feathered edge of face mask for patient comfort and reducing irritation points.
  3. High concentration Oxygen Mask with tubing is intended to supply oxygen or other gases to an individual for oxygen therapy, and the reservoir bag is able to avoid rebreathing.
  4. Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source.
- Tube Length : 210cm  
Size : Adult, Paediatric  
Available with DEHP free Material.  
Sterile / Disposable / Individually Packed.

## NEBULIZER WITH "T" PIECE

Product code : ASA-20

1. Super smooth kink resistance tubing ensures uniform flowrate.
  2. Smooth and feathered edge of face mask for patient comfort and reducing irritation points.
  3. Quick to assemble - Facilitates fast nebulisation
  4. Can be used with Mask, IGel, LMA end ET tube.
  5. Rotatable sections - can be used on patients in sitting or supine position.
  6. Drug dosages and oxygen flow rates remain as per guidelines.
  7. Proximal end of tube is connected with funnel shape connector for easy connection with oxygen source.
  8. Star lumen main tube to avoid accidental blockage.
- Tube Length : 210cm  
Size : Adult, Paediatric & Neonatal  
Available with DEHP free Material.  
Sterile / Disposable / Individually Packed.

# GASTROENTEROLOGY

## RYLE'S TUBE

### Product code : GSTRO-01

1. Suitable for nasogastric insertion for nutritional purposes or aspiration of intestinal secretion.
2. Super smooth kink resistance tubing ensures uniform flowrate.
3. Automatic, soft rounded, closed tip with four lateral eyes for efficient aspiration & administration.
4. The tube is marked at 50,60 & 70 cm from the tip for accurate placement.
5. Proximal end is fitted with universal funnel shaped connector for extension.
6. Color coded connectors for easy identification of size as per standards.
7. X-Ray opaque line provided through out the length of tube.

Available with DEHP free Material.

Available with universal luer Connector.

Tube Length : 105cm

Sterile / Disposable / Individually Packed.

Color code	Light Green	Blue	Black	White	Green	Orange	Red	Yellow	Violet	Light Blue
Size FG	6	8	10	12	14	16	18	20	22	24

## STOMACH TUBE

### Product code : GSTRO-02

1. Super smooth kink resistance tubing ensures uniform flowrate.
2. Automatic, soft rounded, closed tip with four lateral eyes for efficient aspiration & administration.
3. The tube is marked at 45,55,65 & 75 cm from the tip for accurate placement.
4. Proximal end is fitted with universal funnel shaped connector for extension.
5. Color coded connectors for easy identification of size as per standards.
6. X-Ray opaque line provided through out the length of tube.

Available with DEHP free Material.

Available with universal luer Connector.

Open Distal end or closed distal end.

Tube Length : 105cm

Sterile / Disposable / Individually Packed.

Color code	Light Green	Blue	Black	White	Green	Orange	Red	Yellow	Violet	Light Blue
Size FG	6	8	10	12	14	16	18	20	22	24

## INFANT FEEDING TUBE

### Product code : GSTRO-03

1. For neonatal and paediatric nutritional feeding.
2. Super smooth kink resistance tubing ensures uniform flowrate.
3. Automatic, soft rounded, closed tip with four lateral eyes for efficient aspiration & administration.
4. Proximal end is fitted with universal female luer mount for easy connection to feeding funnel or syringe.
5. Color coded connectors for easy identification of size as per standards.
6. Tube is marked at 20cm away from the distal tip.
7. X-Ray opaque line provided through out the length of tube.

Available with graduation mark after every cm.

Available with DEHP free Material.

Tube Length : 52cm

Sterile / Disposable / Individually Packed.

Color code	Gray	Green	White	Blue	Orange	Black
Size FG	5	6	7	8	9	10

## LEVIN'S TUBE

### Product code : GSTRO-04

1. Suitable for gastro intestinal feeding & aspiration.
2. Super smooth kink resistance tubing ensures uniform flowrate.
3. Automatic, soft rounded, closed tip with four lateral eyes for efficient aspiration & administration.
4. The tube is marked at 45,55,65 & 75 cm from the tip for accurate placement.
5. Proximal end is fitted with universal funnel shaped connector for extension.
6. Color coded connectors for easy identification of size as per standards.

Available with DEHP free Material.

Available with universal luer Connector.

Tube Length : 125cm

Sterile / Disposable / Individually Packed.
